### Property Owner Statement for Demolition Permit

I, \_\_\_\_\_, am the property owner of \_\_\_\_\_

\_\_\_\_\_  
(print street address)

Tax Map # \_\_\_\_\_. Either I or my representative is applying for a permit to demolish  
\_\_\_\_\_ on this property.

(print project type)

This information accurately describes the project to be performed. Any changes, additions or omissions may void the permit and necessitate the submittal of a new application.

The Building Inspector may make periodic site visits to the project to perform general inspections. At each state requiring inspection, no additional work will be done that will cover or preclude that inspection until it is complete and the Building Inspector has signed off on the inspection.

I understand that it is my responsibility as the property owner to make sure inspections are completed and that if any work done prior to a scheduled inspection is dependent upon an item to be inspected, and that item fails inspection, that this work is done at my own risk and may require work to be redone.

I affirm under penalty of perjury that the information provided on this form is true and correct.
